Setting up your BYOx device with a local account instead of a Microsoft Account

1. Click the **Use express settings** button on the *Settings* screen. \square

Settings

Express settings

We recommend these settings, which include occasionally sending info to Microsoft. You can customize these settings now or later.

- Automatically find and connect to devices and content on this network.
- Automatically install Windows updates, app updates, and device software.
- Turn on Do Not Track in Internet Explorer.
- Help protect your PC from unsafe files, apps, and websites, and check online for solutions to problems.
- Help improve Microsoft software, services, and location services by sending us info.
- Use Bing to get search suggestions and web results in Windows Search, and let Microsoft use your location and other info to personalize your experiences.
- In Internet Explorer, use page prediction to preload pages, which sends your browsing history to Microsoft.
- Let Windows and apps use your name, account picture, and advertising ID, and request your location from the Windows Location
 Platform.
